

## COLLABORATIVE CULTURES

Catholic identity is strongly evidenced in a culture of collaboration, which allows individuals and groups to bring together diverse gifts in service of the common good.

Collaborative cultures reflect the Gospel's call to be co-creators with God, promoting creative thinking and action that are essential to transforming and renewing education systems.

2035 Intention: Collaboration is the driving principle of planning and action at all levels of the DOBCEL system of Catholic schools.

**Nominations for this category** should detail in 500 words or less how the nominee/s uses one or more of the three practical principles of the DOBCEL Strategy 2035 (deeper collaboration, networked local innovation or collective autonomy and agency) in service of ***Collaborative Cultures***.
